**biomechanical  
evaluation of the  
phases of the triple  
jump**  
February 5th, 2017 -  
the triple jump is  
one of two track and  
field events in which  
the athlete aims to  
maximize the  
horizontal distance  
jumped this jump is  
prised of 3 take off  
phases hop step and  
jump each playing an  
important role as  
they require the  
jumper to tolerate  
extremely high forces  
of impact and to  
maintain a high level  
of horizontal  
velocity'
